MY PROFILE

Dynamic IT professional with 6 years of experience, specialized in leading cloud and cybersecurity projects. With a proven track record of quick learning and success in growing roles, I am seeking opportunities that allow me to continue scaling, expanding my skills, and refocusing my professional career in the field of Cybersecurity.

EXPERIENCE

**CTO - Cloud Director & Cybersecurity Analyst
2018 - Actualmente**

- Layout, design, and maintenance of CMS for various companies (Wordpress, Prestashop, Joomla, etc.). SEO, Google Analytics, etc.

- Management of over 200 domains (DNS, transfers, hosting, and email).

- Interaction with clients and companies, IT support (remote connection, email, phone, and ticketing system).

- Management of web panels (Plesk, Cpanel), Postfix, email reputation, antispam panels, SSL and S/MIME certificates, etc.

- CDN management, caching, proxy, and website optimization. Cloudflare, plugins, Google Speed Insights, etc.

- Maintenance. Backups with Acronis or Onedrive.

- Technical support related to cybersecurity issues. Management of Ransomware threats, Man in the Middle, and Phishing.

- Installation, management, and maintenance of support tools. OsTicket, ISL.

- Research on new tools. Creation of an API to facilitate mail configurations.

- Business leadership. Budgeting, invoicing, client acquisition.

- Administration of Ubuntu systems with Plesk, Windows.

- Enterprise security.

- We have worked for small and large companies in various sectors.
